96) 21 ÷ 3 = _____

This worksheet is part of the Professor Pete's Classroom eBook "Ten Minutes a Day 2: Multiplication & Division Revision Worksheets". The recommended teaching sequence is shown in the bar at the top of this sheet. 0x tables (number facts) are special cases, relating to common sense thinking about empty sets. Squares are a special set of facts that need to be learned separately and carefully. Point out to students that squares can be indicated using an exponent.
