

Name: _____

Special Cases (+0, +10): 5 [A]

+	1	2	3	Rnbw	0&10	Dble	Dble+1	9	8	All
---	---	---	---	------	------	------	--------	---	---	-----

Plus 0 and plus 10 facts are SPECIAL CASES.

Adding zero - Talk to students about nothing at all to another number. That number does not change.

Adding ten to a single digit number results in the associated teen number which has one ten and the single digit number of ones; most pairs of a single digit number and the associated teen number sound similar (eg, "six" and "sixteen"). This can be illustrated easily with a pair of ten frames.

+0, +10
