This worksheet is part of the Professor Pete's Classroom eBook "Ten Minutes a Day Level 2: Multiplication Worksheets". The recommended teaching sequence is shown in the bar at the top of this sheet. 6x tables (number facts) are learned using a BUILD FROM FIVES strategy. Talk about 6 as one more than 5: e.g.  $3 \times 6 = 3 \times 5 + 3 \times 1 = 18$ . OR you can use the DOUBLE x3 strategy. NB: Most 6x facts will have been covered in other sets by this stage. The Revision section includes questions from previous number facts. Have the students record their time taken to complete the page.
