The image is a promotional banner for Professor Pete's Classroom. It features the classroom logo in the top left, a cartoon professor character on the right, and central text that reads 'This is a PREVIEW' followed by 'Subscribe today for a whole year's access to ALL our worksheets and videos!'. At the bottom, it says 'Already a subscriber? Log in to download the full version of this worksheet.'

Teach

- N
- A

number 2 after etc.

- At the start your students may need to count touching the number lines.
- Use the flash cards and have the students recall answers for them.
- Ask your students to identify the answer or flash card for stories. "I saw 5 butterflies. 2 more came. There were 7 butterflies altogether."
- Extend stories to include turnaround facts ( $4+1=5$ ;  $1+4=5$ ). Do this gradually. Don't rush your students to make these connections.
- Encourage your students to see the number lines in their heads and just "know" the answers.
