

Teaching Strategies

Real life stories

These are very important for your students to understand that numbers are important, are useful, make sense and can be used to solve problems.

Making up stories

In your stories different language.

For addition use such as “and”, “together”, “make” and “add”, use them interchangeably.

For subtractions use “how many more to make...?”, “take- away”, “lost”, “gone away”, “eaten”,

For “difference between” students may solve it in different ways. Having a second row of
