

Double Ten Frame Flash Cards

Numbers to 20

Double ten frame flash cards for laminating:

Print and cut in half, then laminate. Rotate the cards so the ten frames are vertical. Run through the cards with the students on a daily basis. “Flash” each card for a few seconds, until all students can instantly recall each number shown.

- Students who are not familiar with ten frames may need to count the dots at first. Encourage them to recognize each number without counting (subitizing) when they are ready.
- Practice the recognition of the numbers on the cards for a few minutes each day
- Ask students to tell stories about the number
