

Addition Flash Cards

2 + (cards A5 size)

Addition

Print and cut out each card for a second or third class.

Flashcard

- Have students read the equation and say the answer.
- Have students write the answer on a separate piece of paper.
- ◊ e.g. [2 + 3 = 5]
- Have students write the equation on a separate piece of paper.
- ◊ e.g. "7 - 2 = 5" or "7 - 5 = 2"

Flashcards without answers:

- Have all students say each number fact as it is shown **with** the answer.
- Have individual students respond with the answer. Make it a speed test .
- Have two or three students race to be the first to respond with the correct answer.
- Have a student say the "turn around" fact
 - ◊ e.g. [2 + 5 = 7] turn around fact: "5 + 2 = 7"
- Have a student give a related subtraction fact
 - ◊ e.g. [7 - 2 = 5] or "7 - 5 = 2"
- Tell stories about the addition fact e.g. "One child had 2 cupcakes. Another child had 3 cupcakes. How many cupcakes were there altogether ?" "A farmer planted 2 bushes and then planted another 8. How many bushes were planted altogether?" Encourage students to use sensible examples. Large numbers will need different stories. For example a child could not eat 12 cupcakes!
