

# Addition Flash Cards

+ 1 (cards A5 size)

## Addition

Print and cut out each card for use in a second or third year classroom.

## Flashcard

- Have students read the equation aloud.
- Have students solve the equation.
- ◊ e.g. [5 + 1 = 6]
- Have students write the equation on a piece of paper.
- ◊ e.g. "6 - 5 = 1" or "6 - 1 = 5"

## Flashcards without answers:

- Have all students say each number fact as it is shown **with** the answer.
- Have individual students respond with the answer. Make it a speed test .
- Have two or three students race to be the first to respond with the correct answer.
- Have a student say the "turn around" fact
  - ◊ e.g. [5 + 1 = 6] turn around fact: "1 + 5 = 6"
- Have a student give a related subtraction fact
  - ◊ e.g. [6 - 1 = 5] or "6 - 5 = 1"
- Tell stories about the addition fact e.g. "One child had 2 cupcakes. Another child had 3 cupcakes. How many cupcakes were there altogether ?" "A farmer planted 6 bushes and then planted another 8. How many bushes were planted altogether?" Encourage students to use sensible examples. Large numbers will need different stories. For example a child could not eat 12 cupcakes!
