| 95) _____ + 90 = 150 | 100) 80 + 90 = _____ |

This worksheet is part of the Professor Pete's Classroom eBook "Ten Minutes a Day 2: Addition & Subtraction Extended Worksheets". The recommended teaching sequence is shown in the bar at the top of this sheet. Plus 9 number facts are taught using a NEAR TEN strategy: encourage students to think of adding ten, then subtracting one. Minus 9 facts are similar, encourage students to think of taking ten, then adding one. The difference of 9 requires students to think of taking the ones from the teen number, then adding one more. Ten frames are excellent for explaining these facts.
