

Multiplication Flash Cards

12 x (Letter size)

Multiplication

Print and cut out each card for a set of 10 cards.

Flashcards with answers:

- Have students say the multiplication fact as it is shown.
- Have students say the multiplication fact and the answer.
 - ◊ e.g. [12 x 5 = 60] related division fact: "60 ÷ 12 = 5" or "60 ÷ 5 = 12"

Flashcards without answers:

- Have all students say each number fact as it is shown **with** the answer.
- Have individual students respond with the answer. Make it a speed test.
- Have two or three students race to be the first to respond with the correct answer.
- Have a student say the "turn around" fact
 - ◊ e.g. [12 x 5 = ___] turn around fact: "5 x 12 = 60"
- Have a student give a related division fact
 - ◊ e.g. [12 x 5 = ___] related division fact: "60 ÷ 12 = 5" or "60 ÷ 5 = 12"
- Tell stories about the multiplication fact e.g. "Twelve children ate 3 cupcakes each. How many cupcakes altogether?" "A farmer planted eight rows of 6 bushes. How many bushes altogether?" Encourage students to use sensible examples. Large numbers will need different stories. For example a child could not eat 12 hot dogs!
