

Addition Flash Cards

3 + (Letter size)

Addition

Print and cut out each card for a flashcard.

Flashcards

- Have all students say each number fact as it is shown **with** the answer.
- Have individual students respond with the answer. Make it a speed test.
- Have two or three students race to be the first to respond with the correct answer.
- Have a student say the “turn around” fact
 - ◇ e.g. [3 + 5 = 8] turn around fact: “5 + 3 = 8”
- Have a student give a related subtraction fact
 - ◇ e.g. “8 – 5 = 3” or “8 – 3 = 5”

Flashcards without answers:

- Have all students say each number fact as it is shown **with** the answer.
- Have individual students respond with the answer. Make it a speed test.
- Have two or three students race to be the first to respond with the correct answer.
- Have a student say the “turn around” fact
 - ◇ e.g. [3 + 5 = 8] turn around fact: “5 + 3 = 8”
- Have a student give a related subtraction fact
 - ◇ e.g. “8 – 5 = 3” or “8 – 3 = 5”
- Tell stories about the addition fact e.g. “One child had 3 cupcakes. Another child had 3 cupcakes. How many cupcakes were there altogether?” “A farmer planted 3 bushes and then planted another 8. How many bushes were planted altogether?” Encourage students to use sensible examples. Large numbers will need different stories. For example a child could not eat 12 cupcakes!
