

Teaching Strategies 1

Classroom Uses and Activities

As the Scrolling Hundreds Board shows 100 numbers from 0 to 2000, many of the traditional activities that are able to be used with a hundred board, can now be used for numbers to 2000 also. Extending beyond 100, the Scrolling Hundreds Board opens these activities to extended use along with a whole new set of activities.

These activities include:

- Counting activities in 1s or skip counting by 2, 5, 10, 20, 100, and so on.

- Exploring multiples for discovering patterns that can be continued to 2000. Excellent for number facts and beyond. (Use the attached templates 1 or 2 if desired, for students to keep their own record.)

80	81	82	83
90	91	92	93
100	101	102	103
110	111	112	113
