

Reading and Writing Numbers to 99

This activity focuses on the use of the packets of gum to show numbers to 99.

Prerequisite: If you have not already introduced the numbers to 99 using Unifix cubes or other familiar resources, see *Reading and Writing Numbers 20-99 Unifix* first and *Reading and Writing Teen Numbers Unifix*. It is recommended that you follow those lesson plans before using this one.

Important Note: Bags of marbles are a familiar grouping of objects that students may encounter in the real world. The Easy Place Value Gadget allows for this object to be grouped and ungrouped on-screen. This means that students can see, virtually, what happens with these bags as a group of ten is created. Animations allow for the packing and unpacking of the 10 marbles.

1. Revise reading and writing tens and ones with Unifix cubes, bundling sticks and place value

ents the

- **Say:** Let's count on from 49... (placing extra ones gum pieces as you go) 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. Then place the last one making 10 ones.
- **Remind students:** *What happens when we get 10 ones?... the marbles are packaged into 1 bag of ten, which moves to the Tens place.*
- **Ask:** *How many tens are there now? How many ones?*
- **Say:** *Write down the number shown now. Count or repeat with other numbers. Count backwards.*
- Watch the numbers change as the marble bags group and ungroup as you go.
- Have students complete the worksheets.

* See attached chart.

Listen to your teacher and write your answers here.
