Colour the circles one colour, and the ovals another.
Colour the background all one colour.

Colour the kites one colour, and the diamonds another.
Colour the background all one colour.

Colour the squares one colour, and the triangles and rectangles another.
Colour the background all one colour.

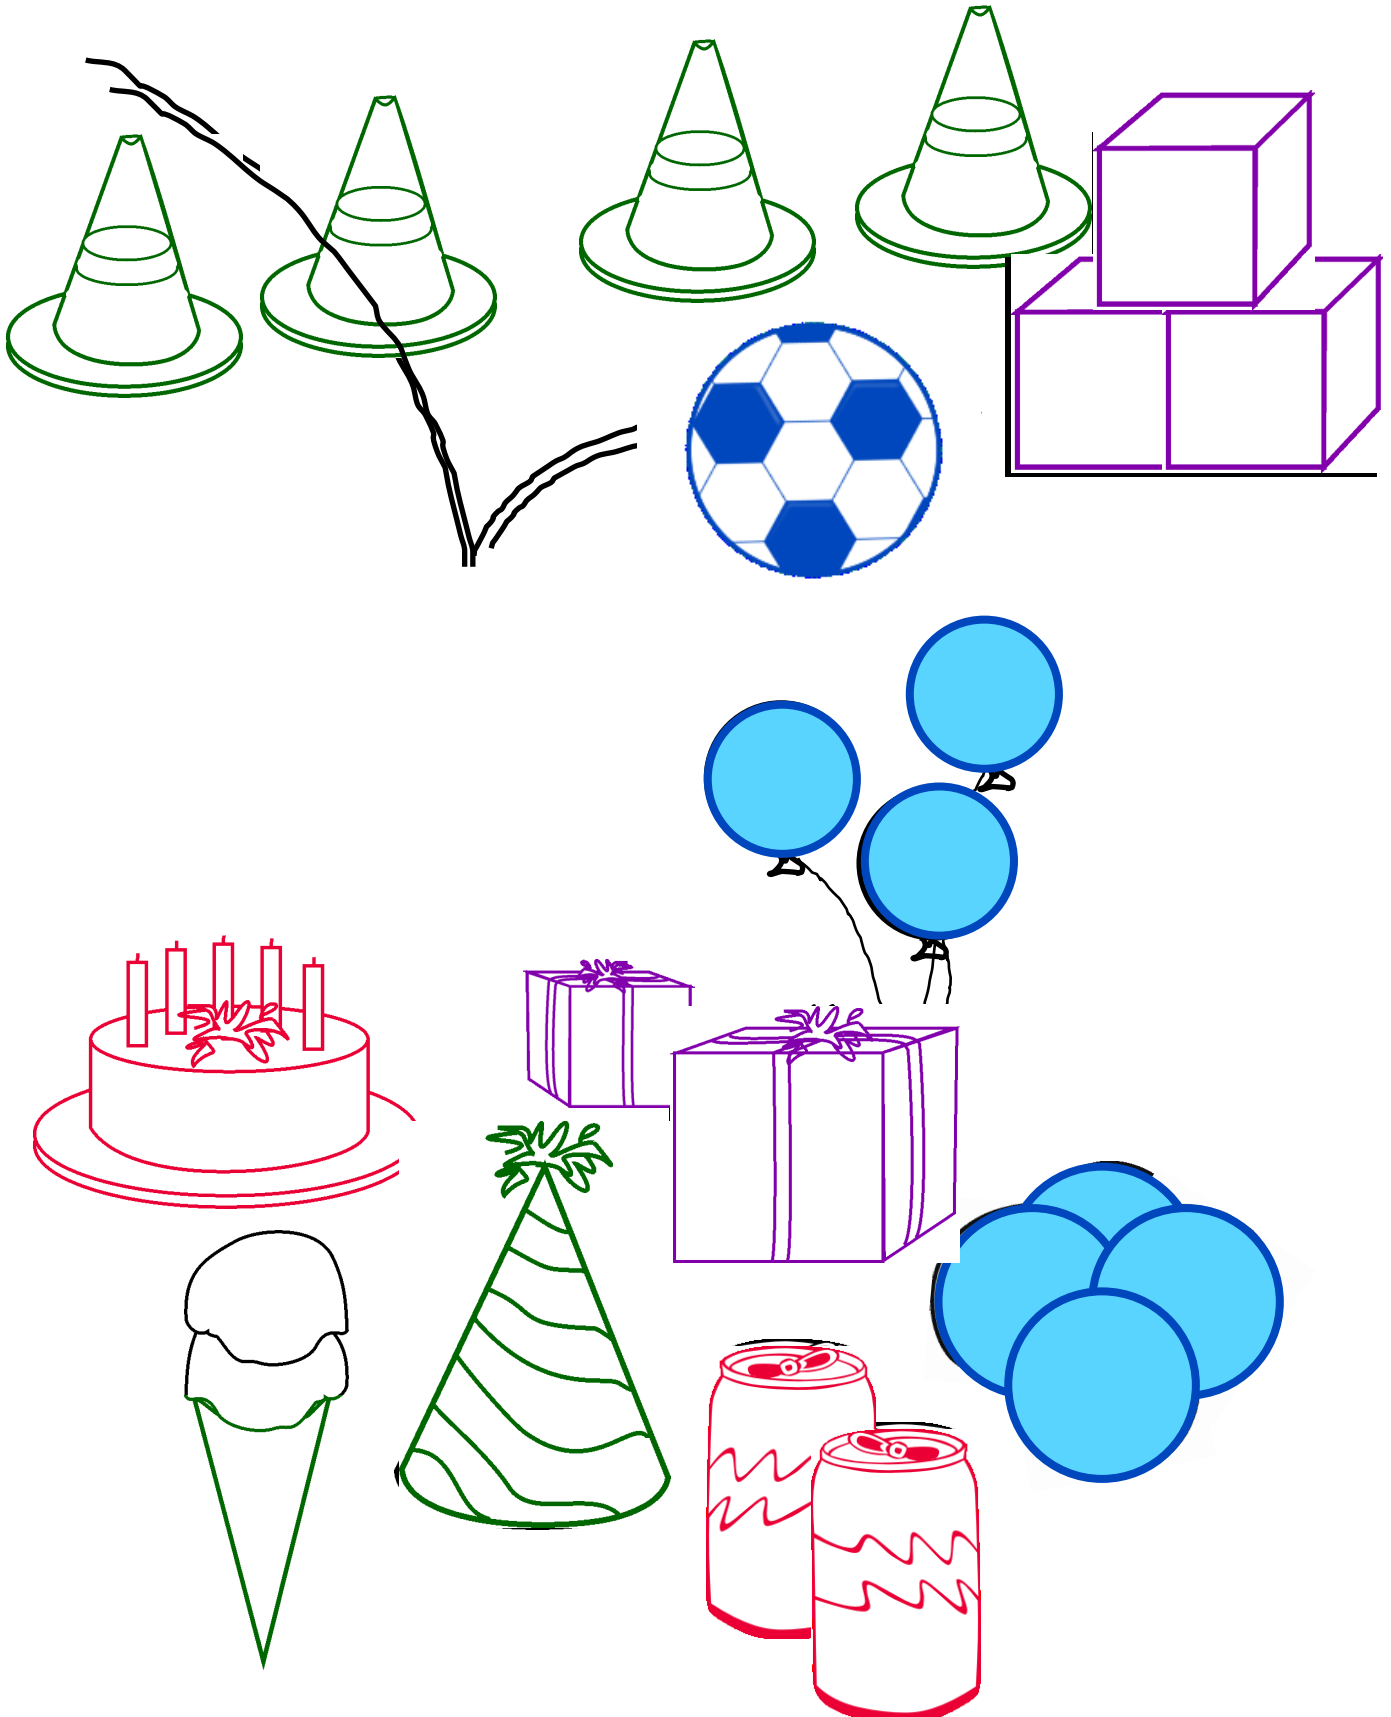

ANSWERS

Draw a line to match the object with its shape

The diagram shows three central boxes with labels and small icons: 'cylinder' with a yellow cylinder icon, 'cube' with a green cube icon, and 'sphere' with a pink sphere icon. Red lines connect these labels to various objects around the page. The connections are as follows: 'cylinder' is connected to a blue can, a purple gift box, a grey trash can, and a red soda can; 'cube' is connected to a stack of colorful books; 'sphere' is connected to a basketball, a beach ball, and a red Christmas ornament. Other objects shown but not connected include a megaphone and a tire.

ANSWERS

Look at these pictures.
 Colour any cylinders in red.
 Colour any cones in green.
 Colour any spheres in blue.
 Colour any cubes in purple.

ANSWERS

Draw a line to match the object with its shape

cone

cylinder

cube

sphere
